Pvt. Robert C. Gourley, Waterville, O.

Pvt. Lester March, Milliken, Col.

Pvt. Aden Brown, Clyde, N. Y.

U. S. PREPARED FOR GREAT AND STARTLING SACRIFICE

Correspondent Says He Can't Tell What It Is, But It May Be More Dramatic Than Brigading.

London, June 14.—The American army is prepared, if necessary, to make a greater sacrifice than that involved in the brigading of American troops with the French and British, declares the correspondent of the Daily Mail, with the American forces in France. He says:

To brigade American troops with the French and British was a great sacrifice, greater perhaps than most people imagine, but I understand that if the events of the next few days and the plans of the allies should so demand, the United States is prepared for an even much greater sacrifice and of a character much more dramatic and startling. I cannot give details and the necessity may by good fortune never arise, but whatever happens the allies will always carry a feeling of gratitude for the magnificent spirit with which the United States is playing her part in the war.

A. F. OF L. ASKS WILSON TO TAKE OVER WIRES

Resolution Requesting Immediate Action Adopted by St. Paul Convention.

St. Paul, Minn., June 14.—A resolution asking President Wilson to take control of the Western Union and Postal Telegraph companies immediately, in view of the possibility of a strike of union telegraphers, was adopted yesterday at the annual convention of the American Federation of Labor. Another resolution calling upon the federation to pledge its entire support to telegraphers of Seattle, Wash., who, according to the resolution, were discharged for joining the union, was voted down. It was pointed out that a strict interpretation would result in a general strike all over the country.

On recommendation of the committee of federal bodies, it was voted to make the slogan for next Labor day: "Win the War for Freedom." Benjamin Schlesinger of New York, Socialist, asked President Gompers if in his opinion failure to stand would be construed as an expression of disloyalty. After Mr. Gompers declared he could not answer the question the recommendation was unanimously adopted.

"We wish to express to you our determination to give whole-hearted support to the government of our free country in this war to establish principles of freedom that will insure peace between nations. We pledge loyal support and service until human freedom shall be the common right of all peoples."

ASKS BRITONS TO RAISE \$2,500,000,000 MORE

This Will Bring the Total Appropriations Up to \$36,710,000,000.

London, June 14.—In the House of Commons Tuesday next, Andrew Bonar Law, the chancellor of the exchequer, is expected to move a war appropriation of \$2,500,000,000, making the total appropriations since the beginning of the war \$36,710,000,000.

Order Fall Fertilizer Early.

Farmers are urged by the United States department of agriculture to place orders at once for fertilizer needed for fall wheat. It is very important, according to W. W. Mein, assistant to the secretary of agriculture in charge of the licensing of fertilizer concerns under the food control act, that dealers and manufacturers know farmers' needs as soon as possible, so that orders can be combined and car space used to the best advantage. Transportation difficulties require that freight can be loaded to their rated capacity. Delay in ordering, it is said, may result in a repetition of last spring's experience when many farmers failed to receive their mixed fertilizer and acid phosphate until after planting time.

THE GOVERNMENT AND FARM LABOR.

No department of government has any authority under the law to seize labor nor can the government create labor. The best we can do is to study each situation and to furnish information and every possible assistance in shifting labor from one neighborhood or region to another, and if that is not possible in a given case to call upon the towns and cities dependent upon agriculture to mobilize all town men of farm experience for aid to farmers, if need be, by substituting women in stores and shops in order to relieve the temporary emergency.

Clarence Outley, assistant secretary of agriculture.

AMERICANS WIN HONORS

Eleven Decorated with Distinguished Service Cross

PART HONORED FOR WORK FEB. 28

General Pershing Conferred the New American Medal

With the American Army in France, Thursday, June 13.—(By the Associated Press).—The distinguished service cross, the new American war medal, has been awarded to eleven members of the American expeditionary force by Gen. Pershing. Announcement was made to-day that two officers, four non-commissioned officers and five privates had been honored. Six of the men were decorated for bravery in action on February 28. Ambulance drivers, artillery men, infantrymen and a private from the medical department comprise those honored. Those receiving the war medals are: Privates (first class) Lece McGilbre and Fred A. Rennie; Corporal Arthur W. Jones (engineers); First Lieutenant Cornelius Board (engineers); Second Lieutenant Ralph Bishop (infantry); Sergeant Eric S. Olsen (infantry); Corporal Ralph S. Sanderson (infantry); Corporal Francis E. Hurley (infantry); Private (first class) Thomas Jolly (medical department); Private Charles Gunter (field artillery); Private Edward J. Farrell (infantry).

AMERICAN TROOPS PRAISED EVERY DAY

Paris Newspapers Carry Commendatory Articles from Correspondents at the Front.

Paris, June 14.—(Havas Agency).—American troops, whose brilliant military qualities are mentioned daily in dispatches from the front, are given unstinted praise in the newspapers of Paris. They celebrated the anniversary of the arrival of the first American contingents in France by meeting a powerful German attack on a difficult sector and inflicting sanguinary losses upon the enemy.

LUMBER PRICES FIXED.

Fir and Southern Yellow Pine for the Government.

Washington, D. C., June 14.—The war industries board to-day announced new maximum retail margins for fir and southern yellow pine lumber for the government's emergency lumber requirements for the period ending July 31, purchased at the Atlantic seaboard. The margins agreed to by the price fixing committee and the industry range from \$2 a thousand feet to \$12.50.

How Strangers Act in New York.

In an article by a great hotel man in the May American Magazine the writer says:

"It has always been of interest to me to see how differently people from other cities or countries act in New York hotels and restaurants. When a westerner or a southerner sits down in a New York restaurant, the first thing he asks for is seafood. Westerners are wild about good oysters, while the southerner wants fresh chickens.

There is an interesting difference, too, between the South Americans and westerners in New York. The western man comes to the city eager for a change in food, room, atmosphere, surroundings and, in fact, everything.

"The South American Spaniard is exactly the reverse. He wants his conditions at home duplicated as nearly as possible. And because this has been impressed upon us, we have the Hotel McAlpin Spanish bell boys, clerks, telephone operators, waiters, and last but not least, Spanish cooks."

Both Bread and Meat in Soy-Bean Flour

"High Powered Food" Made from Vegetables Used for Many Centuries in the Far East.

What would you think of a slice of bread that has the same food value as a beefsteak sandwich?

It isn't a dream nor an exaggeration. It is a fact supported by specialists of the United States department of agriculture. It is based on chemical analyses of and experiments with soy-bean flour, a "new" product that is expected to "winch hit" for wheat, and not only to do that, but to work in meat's place as well. The "high-powered bread" that has the scientific resemblance to a beefsteak sandwich does not even use all of the "volume" of the soy-bean flour. This bread has been made from a mixture of 30 per cent soy-bean flour and 70 per cent wheat flour. It is extremely high in the protein element and is really a substitute for protein foods such as meat and cheese.

Some people call soy-bean flour a "new" food, but it is far from that, for the soy bean was used in China and Japan in the dim dawn of history and has been used in those lands ever since. Only recently, however, has this bean become of importance in the world's commerce and only within the past few years has its food value been recognized in the United States.

The soy bean can be used merely as a bean. It can be pressed, and the oil is valuable. The pressing also produces a cake valuable as a food for human beings and as a feed for animals. When the press cake is ground the soy-bean flour is produced.

To make soy-bean flour available in large quantities the department of agriculture is encouraging southern cotton-

Making the "Mystery Gun" Look Like a Toy

You've been reading a good deal lately about the German mystery gun—the one that shoots shells a distance of seventy miles.

You can do longer distance shooting than that. By saving the things the army needs you will increase the fighting strength of the men at the front and you'll help to decide battles five thousand miles away.

What we're trying to do is to show you how to save in clothes; if you buy the kind that last, you save wool for the soldiers, labor for war work and money for Liberty bonds.

Those are the only kind of clothes we sell at this store; Hart Schaffner & Marx make them. They're all-wool and carefully tailored for long, hard service; they're priced to give you strong values.

Dandruff Scalps Lead to Baldness

If you have dandruff you must get rid of it quickly—its pettiness is dangerous and will surely ruin your hair if you don't.

Dandruff heads mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you.

The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely, and safely and at little expense, there is nothing so effective as Parisian Soap, which you can get from E. A. Drown & Co. and good druggists everywhere. It is guaranteed to banish dandruff, stop itching scalp and falling hair, and promote a new growth, or the cost, small as it is, will be refunded.

Parisian soap is a scientific preparation that supplies all hair needs—an antiseptic liquid, neither sticky or greasy, easy to apply, and delicately perfumed.

If you want beautiful, soft, thick, lustrous hair, and lots of it, by all means use Parisian Soap. Don't delay—begin tonight—a little attention now insures abundant hair for years to come.—Adv.

CUTICURA SOAP AND OINTMENT

Heal Pimples on Face. Itched and Burned. Lost Sleep. Face Disfigured.

"By using perfumed soaps, my face was badly affected with pimples. The pimples were large and red and very hard, and they festered very much. They were in blotches and itched and burned all the time so severely that I irritated my face by scratching. I lost sleep, and my face was disfigured.

"Then I used Cuticura, and I used two boxes of Cuticura Ointment with two cakes of Soap when I was healed." (Signed) Miss Mary Struthers, 1 Cross St., Beachmont, Mass., July 28, 1917.

For every purpose of the toilet Cuticura Soap and Ointment are supreme.

Sample Each Free by Mail. Address postcard: "Cuticura, Dept. H, Boston."

Sold everywhere. Soap 5c. Ointment 25c and 50c.
